

HILL SURVEYS A NEW LINE

American Railway King Plans an Entrance to Manitoba

Neepawa, Feb. 27.—An American, acting in the interests of J. J. Hill, who has run survey lines north through here from Brandon, to which he is building from St. John, N. D., has been negotiating for thirty-seven acres between the C. P. R. station and the business section of the town. Another American syndicate is negotiating for the purchase of the large flour mills of the Manitoba Milling Co. here. Strong suspicions exist that Hill interests are at the bottom of the negotiations and that Hill is either seeking an outlet to Hudson's Bay or is seeking to tap the wheat centre here, as he is doing in the new provinces.

MANITOBA WANTS MORE CASH.

Winnipeg, Feb. 27.—The feature of a four-hour sitting of the Legislature last night was the introduction of an important resolution by the Hon. R. P. Roblin, calling for a re-adjustment of the financial relations between the Dominion and Provincial governments. The premier pointed out that despite the remarkable increase in revenue of the government at Ottawa, the grants made to provinces remained practically the same as they were fixed at Confederation, notwithstanding the rapid increase in expenses of the various provincial governments in matters relating to education, local improvements and care of public institutions. The barrier which divides the two sections of the Legislature on a majority of subjects was removed, and Hon. C. J. Mickle, the leader of the Opposition in the role of seconder to the premier of the province, spoke in favor of the resolution.

WESTERN MAN SHOT HIMSELF

Despondency Leads to Suicide—Relatives in the West

Port Arthur, Feb. 27.—John McNabb, aged fifty, shot himself at his boarding-house on Algona street at 10 o'clock this morning through despondency over money matters. Deceased came here from the west seven weeks ago and had been out of work since. He expected a letter from his family, and not receiving it, committed suicide. He was a surveyor and a civil engineer and it is said he has a wife and five children somewhere in Manitoba or the new provinces. Death was instantaneous.

PEMBINA SETTLING UP.

Paul Ross, who is one of the early settlers of the Pembina river country, is in the city today and reports that the settlers of that country have been experiencing considerable trouble this winter with prairie fires. The grass is always long and luxuriant in that section, and as there has been no snow to speak of this winter and the weather has been warm and dry, it has served excellently to prepare for the sweep of the prairie fire. Settlers have had considerable difficulty guarding their stocks and homes from the flames and one settler, Conklin, who lives close to the Pembina river, was cleaned out altogether by prairie fire.

PRES. CASTRO IS SHOCKED

Attempt to Assassinate Archbishop Arouses Apprehensions

Willemstad, Island of Caracas, Feb. 27.—President Castro is greatly upset as the result of the unsuccessful attempt by an unknown person to poison the most Rev. Dr. Juan Bautista Castro, archbishop of Venezuela, by putting nitrate of silver in the communion wine on Sunday, which caused a great sensation. The archbishop some time ago issued a rebuke to the Venezuelan clergy for their immorality. The attempt on the archbishop's life is generally attributed to a priest.

CASTRO IS WARLIKE

Caracas, Feb. 25.—Castro is still belligerent. He says he will humble France and defy and break up the Monroe doctrine.

MUST SERVE HIS TERM.

Paris, Feb. 26.—The Ministry of Justice has acted adversely on application of American authorities for executive clemency in the case of Elliott F. Sheppard, of New York, grandson of W. H. Vanderbilt, who was sentenced to three months' imprisonment and \$20 fine and to pay four thousand dollars damages to the parents of Ladeline Marduel, who was killed by Sheppard's automobile.

CEMETERIES DENIED ADMISSION

Chicago, Feb. 26.—After repeated efforts to secure a final resting place for the body of John Hoch in one of the city cemeteries, the two clergymen who were at the scaffold yesterday when he was hanged, finally despaired and the body was interred in the potter's field, adjoining the county poor farm. The cemetery in which Spies, Parke, Engel and Fischer executed anarchists, were buried, refused to admit Hoch's body.

—A large number were present at the social and entertainment given in the Baptist church last evening under the auspices of the Young People's Society. A most delightful evening was spent. Among the numbers on the program was a piano duet by Stretch and Mead, a solo by Miss Anderson, of Alberta College, a solo by Mrs. Ironsides, and recitations by Miss McAmmond of the college. Features of the evening were a guessing contest, and a riddle contest. The prize for the guessing contest, an oxidized soap box, went to Mr. Collyer, and Miss Woodworth captured the prize in the riddle contest, which was a Japanese cup and saucer. The social was given in aid of the Sunday school library, those present being expected to bring a book. A good number of books were forthcoming and several made contributions in silver.

Evidently the "bachelor maids" and those who were their guests on Friday evening heartily enjoyed the evening's pleasure for everyone seemed to have entered right into the affair prepared to enjoy the orchestra, the floor, and the pleasantness of the Edmonton girls and their partners with the result that even their rivals in the art of giving charming dances, the young bachelors, admit this to have far out rivalled their best efforts.

WILL PROTECT FOREIGNERS

Washington, Feb. 24.—The United States secretary of state has received a cablegram from Mr. Rockhill, minister to China, that he sees no cause for apprehension concerning the situation there. The published reports of uneasiness are believed to be without cause. Missionary troubles are not more frequent than usual, it is said, and were due, as was the Shanghai riot, to local causes.

Mr. Rockhill says the Chinese government appreciates the importance of preventing hostility towards foreigners, that it has recently been cautioned by Japan in this respect, and that it has declared its determination to ensure their safety under all circumstances. The dispatch adds that while the boycott may continue with local friction, nothing more serious is anticipated by those on the ground. A pronounced general feeling of determination is noted on the part of the Chinese to secure complete economic exploitation of their empire.

A GOOD BEGINNING.

Sometime ago two prominent citizens of the capital of British Columbia paid a visit to our city. They were Mr. David Ker, president of the Brackman-Ker Milling Co., one of the most widely known manufacturing concerns in the west, and Mr. F. M. Rattenbury, architect. During their stay in the city they came in contact with the president of the Public hospital, who informed them of the intention of the board to erect a new building during the coming summer. Before returning home Mr. Ker showed his practical sympathy with the scheme by subscribing \$1,000 towards the building fund and Mr. Rattenbury asked to be allowed the privilege of donating the plans and specifications for the new building. The large hearted generosity of these gentlemen from a sister province ought to have the effect of arousing enthusiasm on the part of the people of Edmonton and the Edmonton district to see that the board has sufficient financial backing to erect the most up to date hospital in the west.

G. T. P. GETS GOOD PASS.

Ottawa, Feb. 25.—A survey is being made for the Grand Trunk Pacific on available passes on the Rockies north of Edmonton. There are other passes which are being explored, and one is reported to open a much more direct route through the mountains on a course that the company was understood of being desirous of taking. In this case, however, there is a maximum grade of two per cent.

WINNIPEG IS SHORT OF WATER

Citizens Asked to Economize Pending Completion of Another Well.

Winnipeg, Feb. 27.—That a grave situation exists in connection with the city's water supply can no longer be denied. The scarcity of water and low pressure has been quite noticeable in the city for some days and from all reports, it assumed alarming proportions yesterday. Significant statements were made on the question by the city engineer and chairman of the fire, water and light committee. The city engineer says, "We made a mistake four years ago when we did not dig an additional well. It would be a good idea to warn the citizens to be as economical as possible in the use of water. It will be three months before the well under construction will be finished, and economy will be necessary until we get additional supply from it. There has been a very heavy waste of water for some days. We have so far been unable to locate this waste. It is not at the reservoir and it must be with some consumers."

KING WALKS WITH A CANE

Fall in Windsor Forest Broke Tendon and His Majesty Limp

New York, Feb. 26.—A London despatch says: King Edward can never walk again without the aid of a cane. The King's fall while shooting in Windsor forest last November resulted in breaking a tendon. The King is sixty-five years old, and nature, even with the aid of surgical assistance, cannot fully repair the broken tendon of an Achilles of a man of that age. The correspondent avers that, leaning on a stick, King Edward walks very slowly and with a pronounced limp. His Majesty leaned heavily on a crutch handled about Malacca cane when he opened Parliament. He could not arise from the throne until the cane was handed to him. He wears an orthopaedic instrument inside his boot to support his ankle. Otherwise the King looks to be in good health.

PRINCE RUPERT

The above cation is the euphonious and appropriate name which the Grand Trunk Pacific have adopted for their terminus on the Pacific Coast. The people of Canada were given an opportunity of naming this city, which some day will become one of the greatest seaports on the Western coast of America, and 1,200 different names were submitted by those who took part in the contest. A name has been chosen that is significant of Canada and one that was prominent in the early history of the country, when nearly the entire area of British North America was known as Prince Rupert's Land. Under the terms of the condition that the name should contain no more than three syllables, no more than ten letters, the name which complied with the conditions and most nearly resembled that selected was Prince Rupert, this name being suggested by Mrs. John Orme, of Bonaventure, Ontario, and by Mr. R. Kirkwood, of Coppercliff, Ontario. The judges, however, decided that "Prince Rupert" was a more pleasing name and more appropriate, and awarded the two hundred and fifty dollar prize to Miss Eleanor A. Macdonald, of Winnipeg, Manitoba, who was the only one who submitted this name. The Grand Trunk Pacific, however, recognizing the spirit of the contest awarded the same amount to each of the two contestants who submitted the name Prince Rupert.

But why Prince Rupert? What had the dashing young cavalry leader of the cavaliers nearly three hundred years ago to do with Canada? Prince Rupert was really the first British Canadian business magnate. He was a promoter of the Hudson's Bay Company, and its first Governor, in 1670. In that year Charles II. granted a charter to the Prince and seventeen other noblemen and gentlemen, incorporating them as "The Governor and Company of Adventurers of England, trading into Hudson's Bay," and securing to them the sole trade and commerce of all those seas and straits, bays, rivers, lakes, creeks and sounds in whatever latitude they shall be, that lie within the entrance to the straits, commonly called Hudson's Straits, together with all the lands and territories upon the countries, coasts and confines of the seas, bays etc., aforesaid that were not already actually possessed by grantees to any other subjects, or possessed by the subjects of any other Christian Prince or State. The first settlement of the country thus granted which was to be known as Rupert's Land were made on James Bay and at Churchill and Hoyle River.

Prince Rupert was born in 1919, the son of Frederick V., Elector-palatine and Elizabeth, eldest daughter of James I. of England. He was a man of impetuous bravery, but at the same time showed lack of caution. When only 13 years old he took part in the siege of Rhelmsberg, and at the age of 18 commanded a regiment of cavalry in active service. At the beginning of the civil war in England he was placed at the head of a regiment of horse and took part in several battles. Notwithstanding a serious error at Marston Moor, he was soon appointed Commander of all the Royal troops. After the defeat of Naseby, on June 14, 1645, he retired to Bristol, but surrendered that city on August 22. The King thereupon deprived him of his commission. In 1648 he was, for want of any competent man appointed to command the fleet. He was blockaded in Blake Harbor, and in October, 1649, forced his way out and steered for Lisbon. Blake pursued him and he was only saved by assistance from the King of Portugal. He subsequently escaped to the West Indies, but after the restoration of Charles II. he was made a Privy Councillor, and served under the Duke of York against the Dutch. He was afterwards Governor of Windsor Castle, where, during the last nine years of his life he devoted himself to scientific and artistic pursuits. He died November 29, 1682.

HOW IT WORKS OUT

The annual budget speech was delivered by the Provincial Treasurer of Manitoba last week and while dealing almost exclusively with the local affairs of that Province, the remarks which the Honorable gentleman did not make but which in all fairness he should have made quite excellently depict the working out of the system of provincial control of lands which not so long since was represented as such a desirable thing for the new provinces of Saskatchewan and Alberta.

The point on which Hon. Mr. Agnew prided himself was that the receipts of the year had so exceeded the expenditure as to leave the Province with a surplus of \$465,122.02. This was the gentleman's trump card and he drew interesting and impressive comparisons between this large sum and the comparatively small amounts which were formerly left in the Provincial treasury after the public requirements of the year had been met.

But what Mr. Agnew did not inform his hearers was the source from which this "surplus" was derived. Of the receipts of the Provincial Government during the year the sum of \$466,752.91 was received from the sale of public lands, thus leaving a surplus of \$18,370.11 of current receipts over current expenditures. The remainder of the sum mislabeled "surplus" by the Honorable gentleman came from the alienation of the Provincial resources and illustrated not the financial genius of the Manitoba Provincial Treasurer but the fact that those resources have been alienated faster during the past year than during any preceding year.

The goal of such policy is inevitable and apparent. Resources held by the Province can only be utilized by sacrificing those resources and the larger the sum annually secured from them the larger the slice of resources annually subtracted from the Provincial assets. The day is rapidly approaching when Manitoba will have neither Provincial lands nor Federal subsidy in lieu thereof.

Yet such was the predicament into which the Federal opposition used every means available to force the Provinces of Alberta and Saskatchewan and into which the Provincial Oppositions labored not less abundantly to persuade the electors to thrust themselves. Fortunately the people of the new provinces knowing from experience how the Federal administration of lands has worked out and seeing quite clearly how the opposition proposal must terminate those the permanent resource of an annual cash subsidy in preference to an endowment of real estate which could not be sold readily, which could only yield revenue by being sold and which when sold would leave the Province in poverty.

"A CALM AND SAFE RETREAT."

President Roosevelt is said to have designs on a Russian island, north of Siberia. What he proposes to do with the island if he gets it is not yet announced, but whatever the purchase the fact should not be overlooked that Russia has no monopoly on this kind of property. Canada might be able to give the energetic president an option on a few acres of primeval icefields on the northern border of Franklin Island. The property is quite as well situated as any Russia is likely to want to part with, and its secession would not unduly curtail the residential portion of the Dominion. The land is situated in a latitude singularly free from rainfall and mosquitoes, sunstroke and yellow fever are unknown, and the agreement for sale would carry a guarantee of an uninterrupted view of the aurora borealis, with the north pole glimmering in the distance. The strenuous may cut ice to their hearts' content at all seasons and the White House is the favorite type of architecture. While accessible by airship and wireless telegraph the region is sufficiently isolated to prevent the intrusion of office seekers and newspaper representatives. As a secluded spot where a president may recuperate from the soul distracting circumstances connected with getting a daughter married, it is equally by far and excelled by none. Polar bears are plentiful and as a place of exile for insurance crooks it combines all the security of a prison with ample provision for their speedy and permanent extinction.

MR. OLIVER IN WINNIPEG

(Free Press)

Hon. Frank Oliver, Minister of the Interior, arrived in the city yesterday from the west and is a guest at the Marlborough. Mr. Oliver has been in the new provinces for some time in connection with the taking over of the public buildings, such as the court houses and jails by the provincial Governments, also in connection with the transfer of the land titles offices from the Dominion to the provinces. He

spent some time in stazing up generally the land and immigration prospects for the coming season.

In conversation with a Free Press reporter last night Mr. Oliver expressed great satisfaction over the outcome of the provincial campaign in the west, and the unopposed return of the Liberal nominee in the two Dominion bye-elections. "The acclamations in the ridings of Saskatchewan and West Assiniboia," he said, "are the most effective answers that could be given to the charges made so vociferously and insistently against the Liberals, especially in the Saskatchewan provincial campaign. The principles which were alleged to be at stake in the Saskatchewan provincial elections were very much more at stake in the Dominion bye-elections. However, notwithstanding the claims made in regard to influencing public sentiment in the provincial campaign, there was not even a bona fide organized attempt on the part of Conservatives or Provincial Rights to put up candidates in the bye-elections. The attempt of Fred S. Pingle in West Assiniboia to pose as an opposition candidate was frustrated by his own friends. The platform on which he proposed to stand was practically nothing more or less than that which is popularly termed "against the Government." If he had been allowed to contest the seat the result would have been a much more signal defeat for the Provincial Rights party. They recognized this and took it into their own hands to frustrate the hopeless ambition of Mr. Pingle."

"The two new members from the west in the Dominion House," continued the minister of the Interior, "will be very creditable and capable representatives. While it is a loss to the Dominion Liberal party to have Messrs. Scott and Lamont transferred to provincial politics, the election of Messrs. McCraney and Knowles for the two constituencies is an evidence of the sound judgment displayed in securing the services of Messrs. Scott and Lamont for the carrying on of provincial affairs at their beginning."

"The answer of the people to the school question cry, when it was put to them in the constitutional way, is embodied in the return of the Liberal governments. The answer was given after months of discussion and public consideration. It was the action of the Dominion Government that was made the issue in the provincial elections. The acclamations in the bye-elections constituted the answer to that issue when it was properly submitted. The answer was a unanimous endorsement of the Dominion policy on the part of those two constituencies, including as they do, nearly one-half of the whole province of Saskatchewan."

In regard to the land and immigration prospects, Hon. Mr. Oliver said that there was every reason to believe that there would be a big movement from the States. Consequently there was likely to be a big demand for homestead lands. The movement seemed likely to be distributed over the whole country. The lands along the C. N. R. line were attracting a good deal of attention. The same was true of the lands contiguous to the G. T. P. route and those along the main line of the C. P. R. and the Crow's Nest branch.

Last night Hon. F. Oliver, John Crawford, M.P., Mr. O'Grady of the Northern Bank, and Mr. Fisher, were guests at Government House for dinner. Lieut.-Governor Bulyea, of Alberta, was also present.

Strathcona Chronicle.—Those who consider this part of Canada the frozen north will no doubt be interested to learn that a robin has been seen flying about the streets of Strathcona for several days this week. Green shoots of grass are visible in several places and the poplar saplings and trees are showing distinct signs of budding growth.

THISTLES AGAIN VICTORIOUS

In a game that was fast and strenuous and real hockey all the way from the draw, the Edmonton Thistles again defeated the Strathcona Seconds by a score of 4-3, and hung up another victory beside the long list of wins to their credit for this season. The game was a better exhibition than that played in Strathcona last week and the little Thistles worked their hardest for every goal that they got. Strathcona lads played good hockey. They had Dobson on for a change, who, like his brother of the Edmonton seniors, is a puzzle with the puck when he makes a rush down the side. But the Thistles held him down, and the only time he got away for a score was near the end of the last half. Bolander scored the first count for the Thistles with a pretty shot. "Cookie" Gordon and Chasler Banford made some nice little runs. "Cookie" got in the second one for the Thistles and Gordon the third, then "Cookie" came down again. For the Strathconas Bud Kent did the trick the first time, and Kennedy made the second one. Their last was secured by Dobson. At half time the tally stood 2-2 for the Thistles. Sammie Humeson of Strathcona refereed, and Campbell of the Edmonton seniors, was judge of play. The Strathcona lads put up a mighty good exhibition, considering the fact that the team has been in existence only a few weeks, and that they have missed a good season's practice. This makes the seventh victory for the Thistle Intermediates out of seven games played. They have fought hard for every game and have had no cliché. But they are a fast bunch, and have the team play down to perfection. Strathcona and the college team are about the stiffest propositions they have had this season, but by dint of hard practice and good management they have pulled out ahead of the deal every time. The game last night will probably be their last for this season.

PARLIAMENT OR NOT

(Toronto Star)
The official ticklers at Ottawa have had their hair raised by the careless way in which Lieutenant-Governor Clark used the word Parliament as referring to a mere legislature. The only genuine Canadian name-blown-in-the-bottle Parliament, so they say, is at Ottawa, and all others are base and spurious imitations to call a Legislature a Parliament they consider far worse than a secession and little less than a crime. It is, indeed, something very like treason, for it is just such slack treatment of words undermines the constitutions by encouraging men to give its terms a loose interpretation. The ticklers are, as usual, right. They have chapter and letter to show for it, and we throw up our hands without a struggle, although we confess that we do not desire the tremendous disasters which might spring from not discriminating closely between twined and twined. In fact, on this question of synonyms we feel very much like the druggist, who if he hasn't got what we want, can offer us "something just as good."
To square ourselves with Ottawa, however, we wish to say that Premier Whitney is responsible for the speech from the throne, and that these verbal encroachments are to be ascribed rather to his sense of importance than to any carelessness on the part of the Lieutenant-Governor. His Honor is a man of correct taste and precise information, and would be the last person in the world to wrest Parliament from its prescribed usage. There are excuses even for Premier Whitney. Once upon a time this Province was part of a Legislative union which was called Parliament, and the old name may cling to long memories as a sort of habit.
If we had to choose between the words on their merits we should choose Legislature. Anyone who has studied etymology knows that Parliament is a place where they talk, and Legislature a place where they make laws.

THE WETASKIWIN FATALITY

(From the Times)
The citizens of Wetaskiwin were shocked on Tuesday morning last to learn that Rev. P. Almgren, the popular Swedish Lutheran Minister, had been suddenly cut off in his useful career. He had been holding services in the neighborhood of Pigeon Lake and after conducting a service on Monday afternoon he hitched up and started driving home to Wetaskiwin. He had only driven about sixty rods when the road took a sharp turn up a little knoll. Just as the summit was reached Mr. Almgren and Mr. Erickson, who accompanied him, saw a large tree overhead falling their direction. They immediately jumped, the latter gentleman escaping with only a few scratches, but Mr. Almgren was pinned to the ground, the trunk of the tree crushing in his chest and a large limb had made a gaping wound over the right eye. Life had departed instantaneously as the deceased never moved after the blow. The tree had been felled by two men who had not heard the approach of the rig.
The team ran away, but were afterwards found with the rig unhurt, hence it is safe to say that had the deceased remained in the rig he would have escaped uninjured. This sad accident takes from our midst one of the most useful ministers of the Gospel. He was very widely known, having been a resident of Wetaskiwin for about four years, but held services in many places in Northern Alberta. By his genial disposition and kindly acts to all mankind, he made friends with all who knew him, and the remembrance of his noble life will ever remain green in the memories of his associates. He was always held in the highest esteem, and his usefulness in the cause of righteousness will never be rightly measured. His sudden death is a sad blow, not only to the bereaved family, but to the town and district at large. The deceased was in his 43rd year and leaves a widow and adopted daughter to mourn his loss.

Lever Brothers Limited, Toronto

THE PRINTING OF SCHOOL BOOKS

Arrangements are now well under way for the holding of a big convention in Vancouver on Friday and Saturday, the last two days of June of representatives of the Allied Printing Trades, from every section of the two new provinces in the Northwest, Alberta and Saskatchewan.

One of the topics to be threshed out will be the printing of public school-books at the Government printing bureau at Victoria, and selling them to the users at cost price. The Allied Printing Trades aim to have legislation passed towards this end. They have gone fully into the subject and already have sent two resolutions to the provincial Government concerning it. It is fully expected the convention will take steps to make this an issue in the next provincial campaign.

It is asserted that over 100,000 goes out of that province every year for school books, which can, the Allied Printing Trades, claim, be furnished from the Government printing bureau at Victoria at a saving of at least ten or 15 per cent.

THE PROVINCIAL EXHIBITION

(Calgary Herald)
 By virtue of the authority granted by Hon. W. T. Finlay, Minister of Agriculture, the Edmonton fair will in future be known as the Provincial Exhibition. The permission of the minister was, of course, not necessary. The fair association had a right to organization on a provincial basis, which would have carried with it the term so much desired. In this connection, it is recalled that Secretary Peterson, of the board of trade, has been steadily urging for more than a year the organization of the Calgary fair upon a provincial basis. This was not done, and now Edmonton has stepped in and secured a prize that in time will be a valuable asset. The lesson is severe, but it will teach some Calgary people the value of time in public enterprise. But Edmonton has supported Calgary very resolutely in the fight for the Dominion exhibition, and this good fortune of Edmonton's ought to be received in a spirit of reciprocity.

They are putting 50,000 on the market and it is reported that they are pushing the sale of it and intend to have the whole area settled up this spring.

—The case of Guy Baxter, charged with shooting at a Chinaman in Strathcona, with intent to do bodily harm, came up in supreme court this morning. Baxter is only a young lad. In company with several other boys he had been teasing some Chinamen, who chased them, and Baxter, who had a revolver, discharged it, the bullet entering the ground. The boy was discharged, as there was no evidence to show that the shooting had been done with intent to injure the Chinaman. His Lordship gave the lad a warning, however, to the effect that if he was ever caught carrying a firearm again he would be severely punished.

—Kelly & Moore opened their men's furnishings store on Jasper Avenue. In the premises recently vacated by Mackintosh & Campbell, on Saturday morning. They have a handsome, well lighted store right in the heart of the business section and the fixtures and general appearance of the establishment are as neat and attractive as any to be seen in the west. They are carrying such standard lines as Slater shoes, Semi-ready clothing and all the internationally famous lines of English and American hats and haberdashery. The fixtures are all of Edmonton manufacture, having been put up by Cushing Bros., and are a tribute to the artistic taste both of the purchasers and the makers. Mr. Moore and Mr. Kelly have both been residents of Edmonton for several years and their large circle of acquaintance will stand them in good stead in the building up a trade on their own account.

—In the basement of the First Presbyterian church last evening nearly one hundred people gathered at the social given under the auspices of the social committee of the Young Peoples society and a very enjoyable time was spent. A program of delightful numbers was listened to during the evening. Miss Sadie McCrimmon with her mandolin, accompanied by Miss Florence McCrimmon on the piano gave a couple of selections that were pleasing. A promising elocutionist is Miss Fairley McQueen, who recited in charming manner a favorite selection. Miss Jessie Cameron, the popular little singer, was present and her solos were enjoyed as usual. While those present spent a pleasant hour in social converse, piano selections were rendered by Misses Ironsides, McLeod, McCrimmon and McIsaac, after which refreshments were served.
